

## **Product information**

# **Classic Gear Oil SAE 80 GL2**

**Bardahl Classic Gear Oil SAE 80** is a 100% mineral single grade gear oil. The chosen viscosity, specially for classic cars, provides a constant lubrication under extreme loads.

**Bardahl Classic Gear Oil SAE 80** contains a minimum of additives and is fully compatible with brass, bronze, copper and nonferrous metals. It is suitable for sealing materials of the time (paper, cork, felt and fabric). The excellent adhesion contributes to minimal wear, even after a long stand still period.

### **Application**

Suitable for gearboxes and final drives of classics that demand a single grade gearbox oil. Includes a friction reducer.

### **Specifications**

API Service GL2
